

2023 Therapeutic and Wellness Subsidy for Intercountry Adoptees

BY IAMADOPTTEE

About the Program

Our Goal

To give intercountry adoptees - living in the U.S. - the opportunity to subsidize or reimburse* the expense to feel well. The healing process can be varied from therapy and other wellness practices to beginning the process to search for birth family or participating at an adoption conference.

The Process

IAMAdoptee is thrilled to launch its second year of providing financial assistance to intercountry adoptees to aid and supplement the journey toward wellness and healing. This year, a new application process has been created to more clearly define the purpose of this funding.

How To Apply

Q: What's Required?

Applicants must carefully review all application questions and submit, or pledge to submit all required application documents (including: contact information and proof of session/workshop/program payment)

Q: How Do I Apply

Completion of the application survey including a short paragraph answering the question:

How would this fund support your short-term and long-term wellness journey as an intercountry adoptee? Where are you in your adoption journey, and how would this fund support you? (300 words max)

Q: What's Involved?

At this time, there is a \$300 cap per request in order to serve as many intercountry adoptees as possible with this limited fund.

This is a once-annual request per adoptee.

Important Info:

Application Deadline: March 31, 2023.
